Music Library

This is where most of the general listing of music is located.

Music has attributes of: music_title, music_artist, and music_album

Music Library ||List of Music *title*, Music *artist*, Music *album*
"This is where the lists of all music is located along with some attributes of Music"

This entire row can be clickable to play that music only

Almost heaven, West Virginia
Blue Ridge Mountains, Shenandoah River
Life is old there, older than the trees
Younger than the mountains, growin' like a breeze

Country roads, take me home
To the place I belong
West Virginia, mountain mama
Take me home, country roads

All my memories gather 'round her
Miner's lady, stranger to blue water
Dark and dusty, painted on the sky
Misty taste of moonshine, teardrop in my eye

ALBUM PIC   Now Playing...Country Roads   Close Lyrics

Changes the label to..."Close Lyrics"

So, when the close lyrics button is clicked.

The Main Content Area simply goes back to view the panel for containing the music library
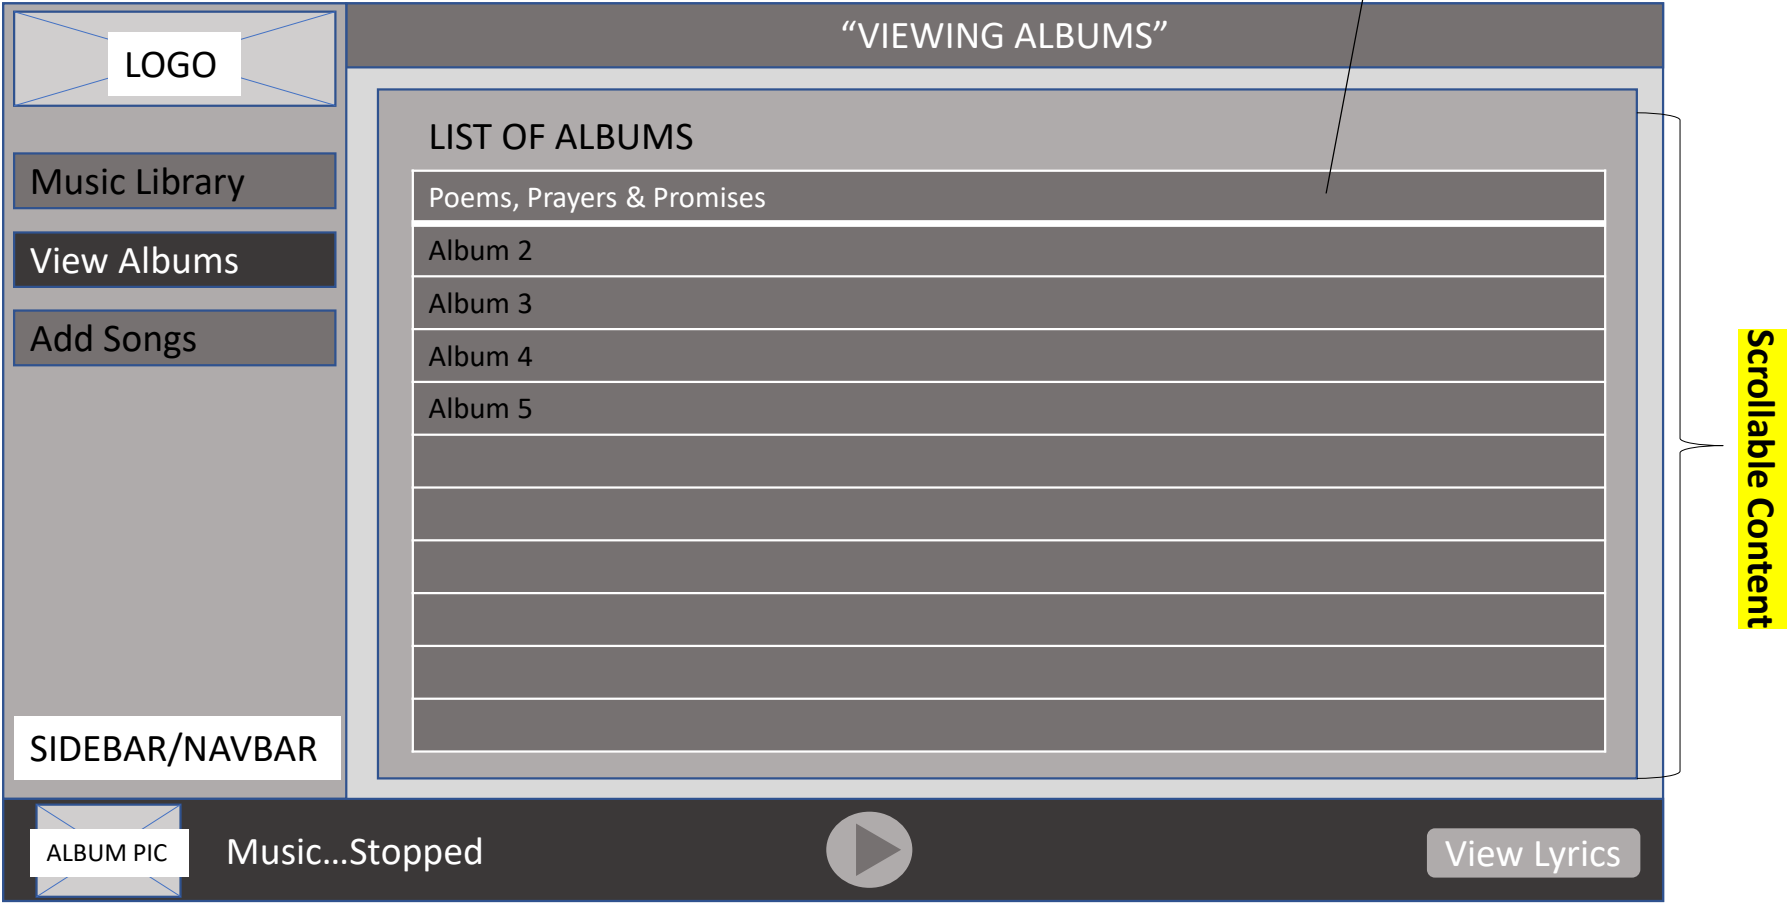

Viewing Albums

This is simply a list of albums where we can at least display the image of an album cover.

It contains the name of albums we have from the library.

View Albums||Album names and its album photo cover

"This is where the lists of all music is located along with some attributes of Music"

This is clickable, and when clicked. It will redirect to a panel where it contains that album
